INTERNSHIPS

DATABITS TECHNOLOGIA   06 Jan, 2025 - 05 Mar, 2025
Intern

Key Skills: Javascript   Front-End Web Development   Matplotlib

During this Internship, I have completed an internship in machine learning, cloud computing or web development, from which I learned most of the front end web development and gained some knowledge about machine learning or cloud computing . Gaining hands-on experience in building responsive, interactive websites using HTML, CSS, JavaScript, and frameworks like React.

PROJECTS

Simon Game

Key Skills: HTML   CSS   Javascript

Built an interactive memory-based game inspired by the classic "Simon Says." The game generates a random sequence of colors that players must memorize and repeat in the correct order. Implemented core game logic using JavaScript, styled the UI with CSS for an engaging look, and ensured responsive interactions through DOM manipulation and event handling. This project strengthened my skills in JavaScript logic, user interaction design, and frontend development.

QUORA POST

Key Skills: Javascript   Node.js   Express.js   REST   API

Developed a full-stack web application inspired by Quora, allowing users to create, view, edit, and delete posts. Built RESTful API endpoints using Node.js and Express to handle CRUD operations efficiently. Focused on clean backend architecture, data handling, and seamless routing to deliver a responsive and user-friendly experience. This project enhanced my skills in server-side development, API design, and managing dynamic data interactions.
